

Eco Living Workshops

Kimbriki Recycling + Land-fill

Tutor for most workshops – Peter Rutherford, Senior Ecologist, MSc.Social Ecology, HDA; with Alison Rutherford.

Guest Speakers, Special Events and Workshops!

The core workshop dates are listed. We will also be running some exciting specialised workshops. Please check the website for new dates for workshops, guest speakers, and special events. See calendar over.

Meet Pete – our Q + A Session

Pete also offers a drop-in time – Thursdays 2 – 4pm. Ask Pete a question about organic gardening – if he can; he'll show you how to solve it.

Workshops – Learn for your Life

The eco house and garden at Kimbriki offers educational programs that teach and promote organic, healthy, and sustainable changes in our everyday lives. There is a contribution of **\$20** for workshops, **\$10** for concessions, **\$10** for children. Kimbriki does not charge for excursions for schools in the SHOROC region – others \$5 per student.

Introduction to Ecological Gardening

Full tour of the Eco House & Garden + What is Ecology? Overview of ALL our workshops + Intro to the Principles of Organic Gardening + Intro to 'Bio-Genics' – the healing

power of plants + How your garden can keep you & your family healthy + Tasting of edible flowers + The real difference between organic and non-organic food.

Weeds are Wild Herbs & their Role in Your Garden

What is a weed (wild herb)? What is the role of weeds/wild herbs? + ID of some common 'wild herbs' + What wild herbs are useful? What wild herbs are edible?

The Wonderful World of Worms

Why have a worm farm? Learn why food scraps must be taken out of our rubbish bins + Setting up your worm farm + Turn your food scraps into healthy, living soil + Feeding your worms + Ongoing management of your worm farm + How to use worm castings on your garden + Answers to the most common problems with worm farms + The real difference between organic & non-organic food.

The Art of Composting

Why Compost? Learn why food scraps & garden waste must be taken out of our rubbish bins + Setting up your compost bin + What goes into your compost? + Learn different methods of composting + Maintaining & troubleshooting your compost + How to use compost on your garden + The vital role of

organic matter & humus in your soil + The real difference between organic and non-organic food + Outlining the human health problems associated with using synthetic fertilisers on your edible garden.

No-Dig Edible Gardening

What is a no-dig garden? Why build a no-dig garden? Learn the basic skills to make your own no-dig garden + What to plant in your no-dig garden + We'll build a small garden together + Ongoing management of your no-dig edible garden.

Propagation + Pruning

Brief introduction to ecogardening + Growing seeds and cuttings + Pruning Principles.

Eco Mites – Children's Holiday Workshop

Ecology, Funky Craft and Re-use, for Children 7yrs and older – with Tanya Leishman
Wed 6 Oct or Sunday 10 Oct, 1.5 hours workshop (10.30am – 12 noon)
Contribution \$10 per child. Accompanying adults welcome to stay free.

You will go home understanding the meaning of Eco – ECOLOGY. Come and create artworks and/or jewellery. We will re-use and recycle materials and use things you find in the garden. Bring your imagination and take home your creation. Share the joy in re-using household objects. Why throw it away when you can give it another life. Places limited. Book now!

Ecology?

= Ecos - everywhere I go

+ Logos - learning and taking care

Ecology = I will take care of everywhere I go

The Eco House and Garden is inside:

Kimbriki Recycling + Landfill, Kimbriki Road, off Mona Vale Road Ingleside / Terrey Hills, NSW. Follow signs to the 'Cars' entry.

Enhance Soil Life and Plant Health

NB Must have already completed any of the Kimbriki Intro to Eco, Composting or Worms Workshop.

Learn how to make and use modern aerated compost 'Teas' and worm 'Juice' sprays. This applied recent biological research is the leading edge of modern horticultural knowledge. These aerated teas are amazing for creating healthier plants and soil. Start understanding and managing the microbial 'balance' in your garden. Learn how to build healthy, living soils. Healthy soil creates healthy people.

Small Space Edible Gardens

Brief introduction to eco gardening + Growing edible food and flowers in small courtyards and on sunny balconies + the basics of container growing + growing sprouts and microgreens in your home.

Growing Fruit Trees

Learn to grow fruit trees successfully + Planting of fruit trees + Pruning of fruit trees.

Bookings are Essential!

Please email kimbriki@kimbriki.com or phone 9486 3542.

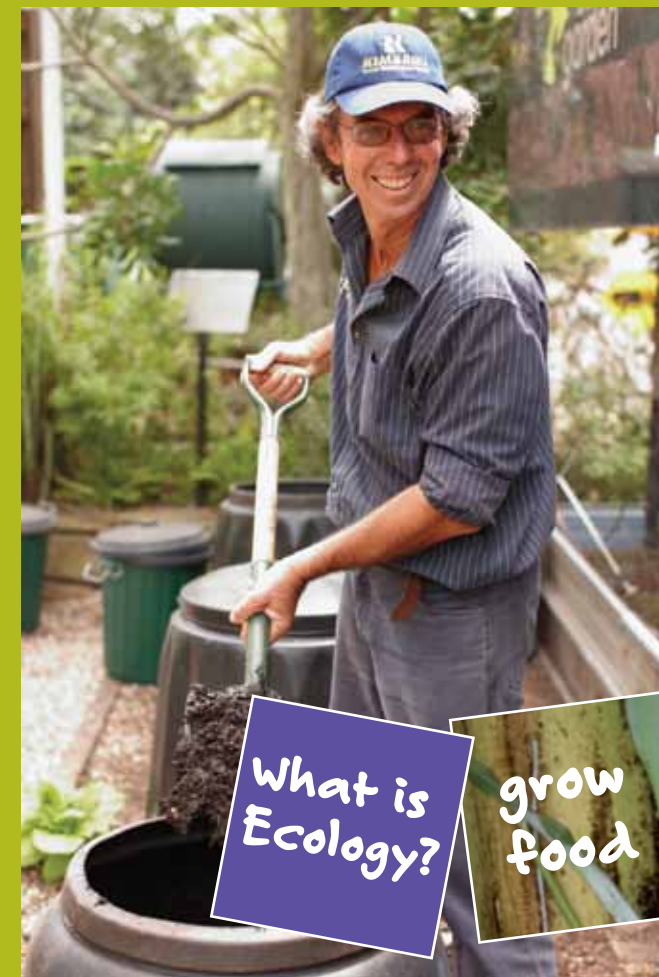

Group Visits and Recycling Centre Tour

Tuesdays and Wednesdays are our usual days for group and school visits. See our website www.ecohouseandgarden.com.au for more information. For bookings please email kimbriki@kimbriki.com or phone 9486 3542.

Eco Workshops

Kimbriki

Dates to Dec 2010
